

Womack Army Medical Center PGY1 Pharmacy Residency

Institutional Overview

Womack Army Medical Center (WAMC) is one of the busiest military complexes worldwide; Fort Bragg is home to the legendary 82nd Airborne Division, the XVIII Airborne Corps, the U.S. Army Special Operations Command, the U.S. Army Forces Command, the U.S. Army Reserve Command and the U.S. Army Parachute Team, the Golden Knights.

By population, Fort Bragg is the largest Army installation in the world, home to nearly 10 percent of the Army's active component forces.

Womack Army Medical Center, a state-of-the-art medical complex, is an integral component of Fort Bragg's military mission.

Womack Army Medical Center is dedicated to Medal of Honor recipient PFC Bryant Homer Womack, a courageous medic who gave his life tending to the wounds of his fellow soldiers, even though he, himself, had sustained mortal wounds during a surprise enemy attack in Korea in 1952.

PGY1 Residency Program Purpose Statement

PGY1 Pharmacy Residency Programs build on Pharm.D. education and outcomes to contribute to the development of a clinical pharmacist responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

- Research Symposium
- Lunch & Learn CE
- Pharmacy Newsletter

Military Resident

Long-Term Health Education and Training (LTHET)

Full-time, DOD-subsidized (military-sponsored) health or health-related education or training in a military or civilian facility of 26 weeks or more including education or training received in preparation for commissioning as a health professions officer and subsequent commissioning.

Eligibility

A 1-year residency in pharmacy specialties is available to Active Duty (AD) pharmacy officers and new officer accessions who qualify for a commission as a pharmacist. An AD officer will not be in competition with a new accession as the ceiling for residency positions has been increased to accommodate this recruiting tool. New accessions will not be offered residencies until after AD officers have been selected. AD officers should refer to the annual message on LTHET to determine eligibility criteria and specialty residencies offered.

ASHP match program statement

Commissioned pharmacy officers are exempted from participating in the match by ASHP.
